GenAI & Agentic AI Engineer with 5+ years building production AI systems - from multi-agent orchestration frameworks and Text-to-SQL platforms to full-stack React applications. Shipped enterprise Agentic AI solutions on Azure OpenAI processing 500+ documents with high accuracy, reduced regional onboarding time by 35%, and cut feature delivery time by 30% through reusable full-stack architectures. Strong foundation in LLMs, LangChain/LangGraph, RAG, and scalable backend design.

WORK EXPERIENCE

Genpact — **Bangalore, Karnataka**
(Senior AI Engineer) — **July 2024 - Present**

- Key contributor to **Genpact AP Trace**, an Agentic AI-based invoice duplicate detection platform — designed multi-agent logic that proactively flagged duplicate invoices across 10,000+ invoices monthly, reducing financial leakage risk by an estimated 15-20%.
- Led development of **multi-agent orchestration frameworks** using LangGraph and Azure OpenAI to automate vendor onboarding and compliance validation workflows, reducing manual processing effort by 40%.
- Designed and built a **Text-to-SQL AI system** enabling non-technical business users to query enterprise databases in natural language and adopted by 200+ business users across 10+ regions, reducing dependency on manual SQL requests by 60%.
- Built **GenAI-powered document intelligence pipelines** using Azure OpenAI and Azure Document Intelligence for automated invoice and business document extraction, achieving 90%+ extraction accuracy across 500+ document samples.
- Architected **reusable Agentic AI frameworks** for country-specific business logic, enabling rapid configuration of region-specific rules and accelerated onboarding of new regions by ~35%, cutting average rollout time from 6 weeks to under 4 weeks.
- Integrated enterprise systems (**Servicenow, Salesforce, Direct**) via API-driven architectures, improving data synchronization, reliability and reducing integration failure rate by 25%.

CGI — **Bangalore, Karnataka**
(Software Engineer) — **June 2021 – June 2024**

- Built and shipped **full-stack web applications** end-to-end using **React.js and Python (Flask/FastAPI)**, serving 200+ internal/enterprise users across automation tools, dashboards, and operational portals.
- Designed scalable **REST API architecture** with FastAPI, PostgreSQL, and Redis caching, reducing average API response time by 35%.
- Developed reusable **React components** and established frontend coding standards, cutting new feature delivery time by 30%.
- Engineered **Python-based automation pipelines** to replace manual enterprise workflows, reducing processing effort by 40–50% and eliminating an estimated 15-20 hours/week of manual operational work.
- Built and maintained **Selenium-based process automation** for critical web workflows, reducing processing failures by 30%.

EDUCATION

Qualification	Institute	CGPA / Percentage	Time of Completion
Bachelor of Technology	NIT Jalandhar	CGPA – 7.92/10	August 2017 – May 2021
Class XII	GGN Public School, Ludhiana	91.8 %	April 2016 – March 2017
Class X	GGN Public School, Ludhiana	CGPA – 10/10	April 2014 – March 2015

TECHNICAL SKILLS

- **AI / GenAI / Agentic AI:** LLMs, Generative AI, Agentic AI, Multi-Agent Orchestration, LangChain, LangGraph, RAG, Prompt Engineering, Azure OpenAI, Azure Document Intelligence, Vector Databases (FAISS/Pinecone/ChromaDB), Function/Tool Calling, Scikit-Learn, TensorFlow
- **Languages:** Python, JavaScript, SQL, C++
- **Frontend:** React.js, Redux Toolkit, MUI (Material-UI), Tailwind CSS, HTML5/CSS3
- **Backend & APIs:** FastAPI, Flask, REST APIs, WebSockets, Microservices Architecture
- **Databases & Caching:** PostgreSQL, Redis, MongoDB
- **Cloud & DevOps:** Azure (App Service, Functions, OpenAI Service), Docker, Git, CI/CD
- **Data & Visualization:** NumPy, Pandas, Matplotlib, Seaborn
- **Automation & Testing:** Selenium, PyTest
- **CS Fundamentals:** Data Structures & Algorithms, Object-Oriented Programming, System Design

CERTIFICATIONS

- Document AI: From OCR to Agentic Doc Extraction – May 2026
- Databricks Certified Generative AI Engineer Associate– July 2025
